

Cesare Brizio (1959) – CV in 1000 keystrokes

Complete CV: http://www.cesarebrizio.it/CB_EU_CV_EN.pdf

Retired in December 2017 after around 35 years of activity in the ICT sector and in Quality Management, he currently reduced his remunerated activities to a periodic contract as teacher at the FITSTIC Foundation.

Thus, he can devote his time to his lifetime interests, the main of which include:

- fitness (cycling and running)
- bioacoustics (field recordings and scientific publications)
- conchology (he collects shells of the genus *Oliva*)
- photography (e.g. focus stacking photomicrography)
- history of aeronautics (especially the 1945-1955 decade)
- entomology and arachnology
- do it yourself, in particular bicycle mechanics
- small electronics and automation prototypes (Arduino and breadboard)
- management of several small collections: dinosaur miniatures, scale car models, courtyard bird miniatures, etc.

An overview on his activities can be found at the URL <http://www.cesarebrizio.it/>
